

# Dietary Requirements

# Why choose this?

If you have a guest with a severe allergy then we can assist!

Our kitchen contains a whole host of ingredients and therefore we cannot guarantee anything may not contain traces of other ingredients. But, we do have some fantastic accredited suppliers who specialize in gluten free and nut free products and are able to provide packaged items to avoid any risk of cross contamination!

If you would like to have a buffet or dinner with us our chef will happily prepare a menu or dish without the allergens that you require but we will not be able to guarantee that this item contains no traces.

We confirm that we will follow our company process regarding making sure we do allergen sheets. But we want to highlight that our food **MAY CONTAIN NUTS** or **MAY CONTAIN GLUTEN** unless from nut or gluten free suppliers and sealed.

# KOSHER

If you are Kosher, then we can use an external supplier called Hermolis who can cater for you. We are happy to get a quote for you from these caterers who can then send out your meal packaged and can be served at the same time as other food.

We charge cost price for Hermolis as they are specialist suppliers, and it is not something we can offer, please be aware that the quote comes straight from them.

**If you have a dietary need that you would like packaged food for then please contact our office at [UCLHospitality@gatherandgather.com](mailto:UCLHospitality@gatherandgather.com)**
